

Montaj ve Takma Talimatları

1. Remove the adjusting ring by removing adjusting knob and washer.
2. Place the vacuum box over one of the three horizontal slots depending on the desired location. If vacuum box does not fit in slots, see Special Instructions on reverse side.
3. Place the band around the adjusting ring and attach to the vacuum box with the four screws. Mount the adjusting ring back onto to the adapter.
4. Operatörün kendi vakum hortumunu vakum kutusuna bağlayın.

Özel Talimatlar Vakum kutusu
Bevel Boss® üzerindeki
yuvalara oturmuyorsa
aşağıdaki talimatları uygulayın:

1. Locate the two outer tabs as shown on the figure.
2. Place a flathead screwdriver between the tab and the outer edge of the vacuum box.
3. Tırnakları koparmak için kuvvet uygulayın.
4. Proceed with step 3 of **Assembly and Mounting Instructions.**

Not: Eski tip adaptör kafalarında
tırnakların sökülmesi daha büyük
olasılıkla gerekir
